

## Manufacturing Compliance Console (MCC)

MCC provides an interface through which interventions can be recorded consistently with minimum effort, meeting all regulatory requirements.

- Touchscreen for Intervention recording
- Creates batch-wise Intervention reports
- Tracks intervention count and duration
- PDF/Video reference to SOP
- Integration with Filling Machine/sensors
- Supports Stand alone/ Client-Server Architecture
- Data Analysis for Training and Process Improvement
- CFR 21 Part 11 Compliant

Pharma companies uses MCC reports to present reliable GMP data during the regulatory audits.
